

Minutes of Meeting

(MOM-0)

Date: 02-01-2025

Purpose:

Fine-tuning of the problem statement along with discussion of features.

Discussion Points:

1. *Project Setting:*

- The project is designed for implementation in a hospital setting.

2. *Dashboard Features:*

- A dashboard to display data on available blood packets in the blood bank.
- Real-time updates on blood types and their quantities.
- Separate dashboards for hospital staff and end users.

3. *Handling External Circumstances:*

- Blood reserves to be maintained for emergencies and unforeseen circumstances.

4. *Database Logging:*

- All temperature changes to be logged in a database for tracking and accountability.

5. *Integrity Check:*

- Introduce a barcode system on blood bags.
- Blood bags to be scanned to verify if they are safe and feasible for use.

6. *Reward Program:*

- Implement a reward program to incentivize regular donors.

7. *Integration with Existing Systems:*

- Explore integration with **erakthkosh.com** to enhance centralized blood bank management.
